A consistent strategy for building shareholder value
OUR VISION

Our vision is to achieve leadership of the global tobacco industry in order to create shareholder value.

OUR STRATEGY

The strategy to deliver our vision is based on growth, productivity, responsibility and building a winning organisation. We use a range of indicators to assess our performance against our strategy. These include our Key Performance Indicators, as well as our other Business Measures, financial and non-financial. These are also monitored and assessed frequently as we believe that they contribute to the success of the Group, particularly over the long term.
British American Tobacco continued to deliver sustainable growth and had another very successful year. Group revenue was 17 per cent higher (10 per cent at constant rates of exchange). Group profit from operations was 15 per cent up, 20 per cent on adjusted profit from operations (10 per cent at constant rates).

Group volume from subsidiaries, at 724 billion, was up by 1 per cent.

Adjusted diluted earnings per share were 19 per cent higher and dividends for the year also increased by 19 per cent.

FROM THE CHAIRMAN

“We have a clear and consistent strategy that will maintain sustainable growth and build shareholder value.”

Richard Burrows Chairman

Dear Shareholder,

The Board has recommended a final dividend of 71.6p per share, an increase of 16 per cent, which will be paid on 6 May 2010 to shareholders on the register at 12 March 2010. This takes the total dividend for the year to 99.5p, an increase of 19 per cent, and maintains our target of paying out 65 per cent of sustainable earnings in dividends.

I am delighted to be here and optimistic about the future for British American Tobacco. We have a well established company in one of the more resilient industries. Indeed, as an outsider, I have been struck by both the broad stability of the tobacco sector and the opportunities for growth within it.

There are signs that the global economy is beginning to improve, although unemployment, which is an important influence on our business, may continue to rise in developed markets.

We have a very clear strategy and excellent management, with a well balanced portfolio of brands. Our unrivalled geographic spread mitigates risk for shareholders and will help us maintain sustainable growth and build shareholder value.

Richard Burrows Chairman
